

Docket #E-00000XX-13-0214

Dear Corporation Commissioners,

**ORIGINAL**

The energy efficiency standard needs to stay in tact! It is our responsibility as citizens of this earth to protect what we are borrowing.

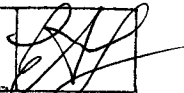

It's disgusting that this was even brought to the surface. Arizona should be ashamed of themselves for being so behind. Join the 21st century please. The less and more efficiently we use, the more we have for the future.
